ANOTHER CRISIS.

The President's case this afternoon is extremely critical. All advices received from Long Branch up to 2:30 this afternoon were very discouraging. The physicians entertain the gravest fear. We are unable to glean anything from the dispatches at all encouraging.

CIVIL SERVICE IN NEW YORK,

Those persons who feared that Collector Robertson would turn the New York Custom House into a political machine, to the neglect and injury of business may dismiss their apprehensions. A deputation from the Chamber of Commerce waited upon the Collector one day last week and presented him with resolutions presented by the Chamber, favoring the continuance and extension of the system of examinations for appointment to place that had prevailed for some years. In re-Mr. Robertson replied, assuring the committee of his desire to serve the interests of business men as well as of

FEW SUGGESTIONS OF IMPOR TANCE ON A SUBJECT OF IN-TEREST TO THE LADIES.

And Certain Facts Which Should h Known by all Women.

Home Journal, New York.

A short time since an article ap peared in the columns of this paper being a synopsis of a lecture delivered by a prominent woman before a wellknown New England society. This known New England society. This is, perhaps, largely due to the presence of so much bigotry and intolerance in that profession. The history of medital profession. of women, and contained so many hints that were valuable, that it naturally attracted no little attention, and has, we learn, been a subject of comment in social circles in nearly every part of the land. The mind and manners of American women are all that can be desired; but it is a lamentable fact that their physical frames are far inferior in comparison with their social and mental characteristics. If the liver is disordered, all torms of dyspepsia occur, the bowels cannot expel the waste matter, and the most distressing inconveniences follow. This is especially true in the case of women. And if the bowels are thus inactive and overloaded, the The Susanville Advocate thinks the capital of Nevada will be removed to Reno in the near future. The State kind. The secret, however, of pre-venting these manifold disorders, is to keep the liver and kidneys in perfect working condition. This is reason; this is science; and it appeals with force to the suffering women of

America. When the body is in a healthy condition, then come beauty of complexion, elasticity of step, hopefulness of disposition, and comfort and happiness in the duties and responsibilities of a family. There is, therefore, every incentive to secure and preserve buoy-

ant health. Warner's Safe Kidney and Liver Cure, the remedy described in the lec-ture to which reference has already been made, is receiving, as it certainwill he stay killed off? That is the ly merits, the most careful attention enestion. The San Francisco Post is still edy which is now doing more to bring health and strength to the American

written thanks of thousands of women but these letters very properly are re-garded as too sacred for publication. No true woman is pleased to have her physical troubles flaunted in the eyes of the world.

The unquestionable value of War-ner's Safe Kidney and Liver Cure is all the more manifest from the fact that heretofore no adequate remedy tor the ills of women has ever been discovered; nor have the medical pro fession ever been able to assist woman in her troubles as she deserves. This cine is a history which illustrates to the fullest the blighting influence of bigotry and intolerance. Harvey, who discovered the circulation of the was driven out of England. Jenner, the father of vaccinnation, was op the founder of the Thompsonian thecry, was the victim of a hateful conwho introduced the use of ether in surgical operations, was charged with witchcraft, and yet the discoveries of these men are to-day recognized as of infinite benefit to the race. It is the solemn duty of every physician in the land to take advatage of every oppor-tunity which is within his reach; not to promote the interests of this or that school, but to heal the people of their infirmities. All have witnessed deathbed scenes, and felt that if skill were equal to disease death might have been postponed many years—that science (if use were made of all the agencies she has revealed,) was equal to a cure.

Now many times in the experience of all has this been illustrated! A cold is contracted, it refuses to yield to a fixed form of treatment, the physician may not be candid enough to call in the aid of other schools, or of independent agencies, and the dear one dies because the doctor will not exhaust every expedient known to the world for relief! If we have the courage of his convictions and employs outside agencies, he is visited with the expulsion from the society of his fellows, and forsooth, becomes what they choose to call a "quack." When they have exhausted all the agencies approved by their schools, they "shirk the responsibility" of the death of their patient by advising a trip to Colorado or Florida, or a voyage to Enrope! Such a treatment may be in accordance with the "code of ethics,"but in the view of the unpredjudiced public it is downright cruelty, if it may not be even more strongly empathzied.

There is no reason, however, why the women in this land should not possess the best of health and spirits. The character of the ccuntry the activity ot her surroundings and the opportunities afforded for recovering lost health and retaining the same are greater than those of any other on the face of the globe. By careful observance of the plain and simple laws of health; by a watchful care over our daily habits and duties, and by a regulation of the life with the remedy above named, which has become so prominent and valuable, there is no reason why all the desirable we have mentioned may not be secured in their highest degree. It is therefore a matter of importance that all women give this subject the attention which it deserves, and the care which they are able to bestow, conscious that their efforts are certain to bring them perfect health and

APPEAL FOR AID.

the Michigan Sufferers.

Very few of our citizens can be aware of the amount of misery which the forest fires of Michigan have caused. Mrs. S. E. Hilliard, of Reno, recently went to Jackson, Michigan. This is near the scene of the conflagration, but that place has not yet been injured. Another young lady left Reno recently for Vernon, Michigan, and before her arrival the town was entirely swept away. Mr. James E. Fowle, of Reno, has received a letter from his grandson at Grand Rapids. Michigan, from which the following extracts are made: "The fire has been I can give no description of the terror and agony which it has caused. She "Showed Him Up."

We take the following notes of wo men's enterprise from a London jour-nal: "A maiden lady at Hereford was summoned last week for having horsewhipped a recreant lover on the Wye Bridge. He swore 'that he goes in bodily fear, as she had threatened to do him grievous harm,' The lady retorted that he had 'courted her devotedly for months, and written her hundles of affection-breathing letters, but, having broken her peace of mind, he had now deserted her, so she was resolved to show him up."
